

WE ARE LOOKING FOR VIRTUAL REALITY ENTHUSIASTS

Join our team as Full Stack Engineer (m/f/d)

-  Where: Work from everywhere in the world
-  Position: Full Stack Engineer
-  Areas: Web Development, Programming
-  Part- or Full-time

Virtual Reality will be integral part of an increasingly connected world in the future. We are a Munich-based software start-up that wants to set the standard for tomorrow's Virtual Reality projects. Our happy customers like Porsche, Siemens and Telekom are already embracing this technologic shift.

Help us to improve our product by

- » Developing web and mobile applications
- » Developing internal and public APIs

What we expect:

- » 3+ years experience in software development
- » Programming with Javascript/Typescript and other languages
- » Strong understanding of SOLID principles
- » Experience with rich user interfaces using HTML, CSS and UI frameworks (Material, Bootstrap, ...)
- » Experience with Single Page Applications (e.g. AngularJS, ReactJS, ...)
- » Experience with API development (e.g. NodeJS, NestJS, ...)
- » Experience with NoSQL databases (e.g. MongoDB, Redis, ...)

Nice to have:

- » Experience with the Electron Framework
- » Experience with DevSecOps and CI/CD

What we offer:

- » Friendly, international and highly motivated team members
- » High degree of freedom and self-autonomy
- » Attractive working conditions and great experience of working in a successful start-up
